SUMMARY

I am a dedicated cybersecurity enthusiast and proactive bug bounty hunter with a focus on identifying and mitigating vulnerabilities. My goal is to leverage my skills in penetration testing and security analysis to help organizations protect their technology and systems against potential threats.

SKILLS

- Network
- Web Development
- Problem Solving
- Data structures
- Linux
- Web Security
- Database
- Algorithms

Projects

E-commerce Webapp

Description: Developed an online anime merchandise shop featuring role-based access, secure authentication, and a responsive design.

Key Features:

- Product management for admins
- Cart functionality for users
- APIs for user login, cart operations, and product handling

Technologies: HTML, CSS, JavaScript, PHP, MySQL

Achievements

- Ranked in the top 8% on TryHackMe in penetration testing and ethical hacking
- Competed in PicoCTF, Cybertalent, and CTFLearn
- Participated in ECPC (14-Aug 2023)

EDUCATION

Faculty of Electronic Engineering, Menoufia University

GPA: 3.1

SEP 2021-2026

- Focus: Cybersecurity
- Current: Student

COURSEWORK

- **eLearnSecurity Junior Penetration Tester (eJPT v1)** (*Studied*)
- **Security+** (*Studied*)
- **Depi penetration testing / vulnerability analyst certification**
- **Red Nexus Red Teamig Course**
